

THE NEW STANDARD IN NATURAL VENTILATION  
LE NOUVEAU STANDARD DE LA VENTILATION NATURELLE

MULTI-WALL  
**ISOCELL**<sup>TM</sup>

THE ONLY MEMBRANE HAVING MULTIPLE INSULATING CELLS  
LA SEULE MEMBRANE AYANT DE MULTIPLES CELLULES ISOLANTES

BY / PAR  
  
DIVISION OF / DE SECCO PLASTIC INC.

An innovation from 

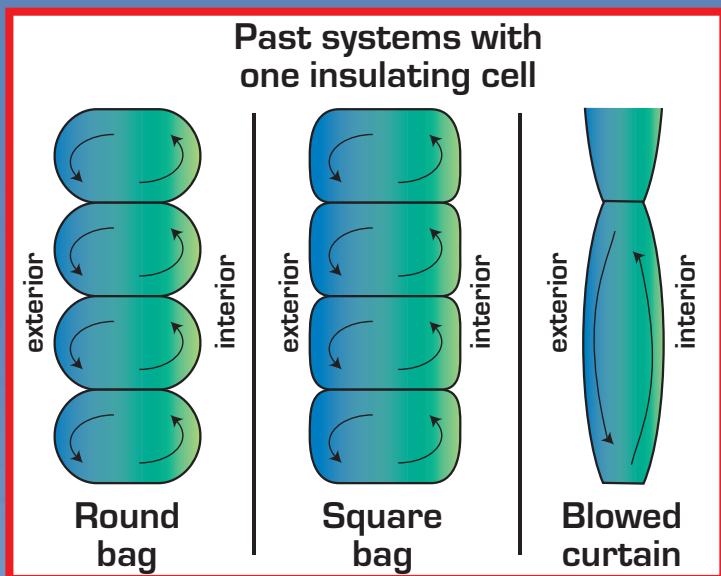

The perfect solution for your natural ventilation combining  
**TRANSPARENCY,**  
**INSULATION** and **RIGIDITY**

Do away with the ice and the cold

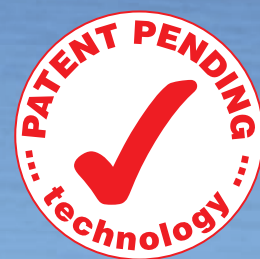

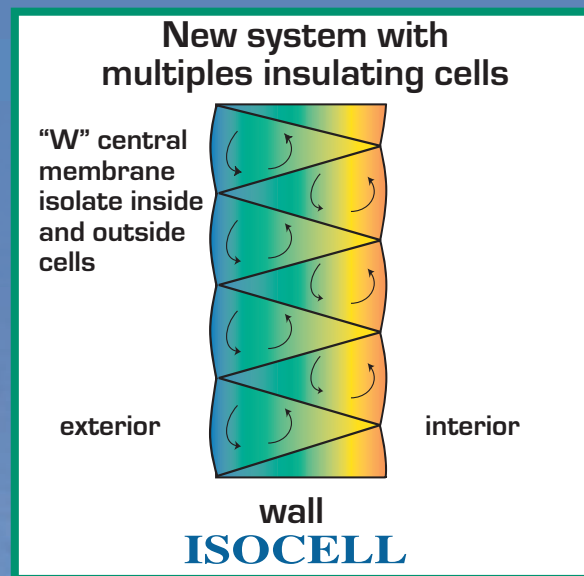

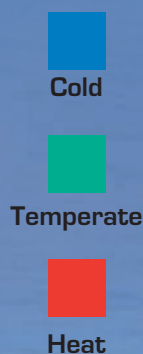

with the unique technology of

**ISOCELL™**

Nearly **2x** the insulating power of ANY other system on the market today !

Those diagrams illustrate the heat zone

The Multi-Wall **ISOCELL™** offers :

- ✓ 2 x more insulation
- ✓ Excellent luminosity
- ✓ Increased reliability
- ✓ Elimination of ice formation
- ✓ Stronger, more solid core structure
- ✓ Improved retraction due to the “W” membrane design
- ✓ Continuous opening up to 10 feet (3 m) and double opening up to 20 feet (6 m)

The “W” membrane inserted inside two films by the **ISOCELL™** technologie offers the possibility to manufacture this unique ventilation wall while having multiple insulating cells.

This new insulated barrier of the Multi-Wall **ISOCELL™** minimizes the heat transference of the colder external air and the warmer interior air cells.

By eliminating the heat transfert, the new Multi-Wall **ISOCELL™** is the most insulating, economical and efficient system on the market !
